

TIME BUSINESS CONFERENCE™

HIGH PERFORMANCE COLLABORATIONS

PUSH COLLABORATION PRODUCTIVITY

Traditional meetings mean that your team has to stop what they are doing, come to a single place and sit down to discuss the meeting objectives. Many meetings tend to be disruptive rather than productive to each and every participant as the actual time and cost goes above and beyond the actual meeting time. If you include the time, travel cost, and the fact that participants plan their days around a meeting rather than pressing business needs, the traditional meeting can be very disruptive to a business.

TIME Business Conference™ is a tool to help teams collaborate in a more productive manner. It connects your team, customers or partners from anywhere in the world in real time on one simple platform. The solution allows teams to exchange ideas and information, and also use the web to share and edit documents simultaneously, for just an hour, or the whole day while teams discuss their daily operational issues. It can also be used for product training or even sales demonstration to prospective customers.

Working together would never be the same again.

SERVICE ARCHITECTURE

We have built a solution exceeding the industry standard. Our TIME Business Conference™ connects directly into our IP|MPLS Core, giving you one step into a fully-resilient network.

Connecting our Metro networks to the global Internet backbone, we route your traffic through our CPCSTM network to give you a reliable network your business can count on. There is no other comparable solution provided to business customers in Malaysia. You get the unheard service level and piece of mind that your business needs are being met by the best solution there is.

HIGH PERFORMANCE SUPPORT™

We are Built for Enterprise Needs

From our network delivery platform to our customer support, we have not compromised in delivering the best solutions to you. Mission-critical requirements are the norm for us with some of the most uncompromising customers operating off our network.

You get first-class service levels as your needs are supported by a Client Manager, your single point of contact.

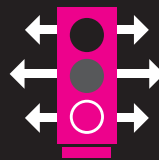

Our DNA is hardwired for business.
