UNSURPASSED PERFORMANCE

TIME Internet Direct provides a dedicated link into your premises. It delivers consistent bandwidth that is scalable up to 10Gbps and customisable to your needs.

The solution is capable of delivering up to 100% service uptime guarantee, a commitment to deliver uninterrupted network uptime for your business.

As a standard, TIME Internet Direct provides a direct connection from your premises to the Internet gateway. If you have subscribed to AIMS' co-location service, the Data Centre Internet Access option is available to give you the same great connectivity.

State-of-the-art Network

- Self-healing network design
- Guaranteed bi-directional bandwidth

Future-proof Capability

- MEF 2.0 certified
- Seamless integration with other core services

High Availability

- Service Level Guarantee of up to 100%
- Mean Time To Respond within 15 minutes
- Mean Time To Repair from as low as 3 hours

Enterprise-grade Internet

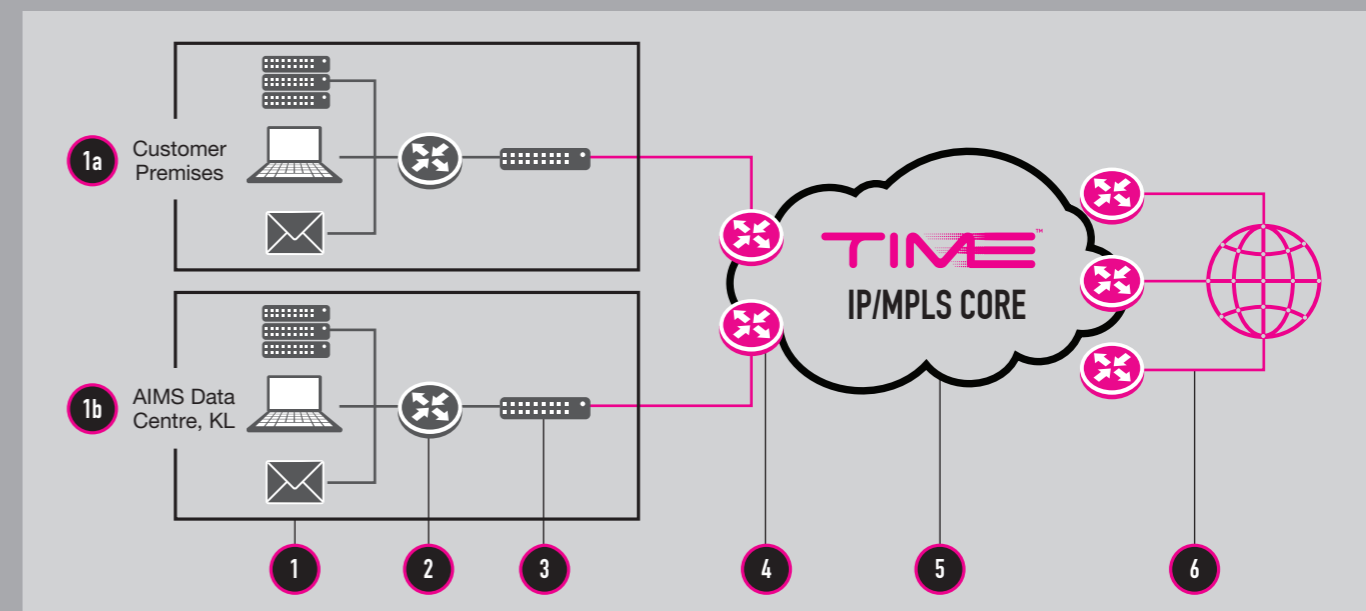

- Dedicated Internet access
- Symmetrical upload and download speeds
